#### **International Journal of Wildland Fire - A Scientific Publication of the IAWF**

*International Journal of Wildland Fire* is published on behalf of the International Association of Wildland Fire by CSIRO Publishing. The journal is published online and in print eight times per year.

The Journal publishes new and significant papers that advance basic and applied research concerning wildland fire. The Journal aims to publish quality papers on a broad range of wildland fire issues, which may include subjects beyond the range of papers published in recent issues. The Journal has an international perspective, since wildland fire plays a major social, economic, and ecological role around the globe.

A subscriber gets free online access to the full text, both PDF and HTML versions, of all issues of the Journal right back to Volume 1. If a subscription lapses, the subscriber still gets perpetual access to those years for which they did subscribe. Non-subscribers can also explore to the Abstract level of each paper.
