

Managing Fire, Understanding Ourselves: Human Dimensions in Safety and Wildland Fire

13TH INTERNATIONAL
WILDLAND FIRE SAFETY SUMMIT &
4TH HUMAN DIMENSIONS OF WILDLAND FIRE
BOISE, IDAHO, USA • APRIL 20-24-2015
www.iawfonline.org

This joint conference offers a forum where past experience and lessons learned are documented, current work showcased, and emerging ideas/technology presented. The conference will create a strong foundation to facilitate charting a course to the future that addresses and responds to developing challenges locally, regionally, and globally. Over 300 participants from emergency services, state, federal and local government, industry, NGOs, research and education are expected to attend.

CALL FOR PRESENTATIONS

We are now soliciting abstracts for Oral, Poster and Special Session Presentations. The deadline for submissions is December 1, 2014. Authors will be notified by January 15, 2015. Visit the conference webpage to submit your abstract.

ATTACHED MEETINGS

We recognize that budgets are tight and it is difficult to justify travel to multiple meetings and conferences, so we are offering the opportunity to hold smaller meetings in conjunction with the Boise conference. Rooms ranging in capacity from 10 to 250 will be available at no extra cost at the Boise Centre during certain times throughout the conference.

TRADE SHOW

The Trade Show will be held Tuesday and Wednesday (April 21-22). The trade show is expected to be a great addition to the conference program and will offer great opportunities for networking. A number of sponsorship and exhibitor packages are available, and we are happy to tailor one to suit your organization's needs.

BOISE AND TRAVEL INFORMATION

The conference will be held at the Boise Centre, Boise, Idaho, USA. A city nestled along the Boise River where the desert softly meets the Rocky Mountains and with a major airport served by non-stop flights from almost every large city (and many little ones) it is easy to get there.
